

Dear FEAS Community,

At this special time of the year, I wanted to express my thanks to all of You. These are really challenging times we are all living in and this community is a real gift in these unusual times.

Looking back at the passing year, in 2021 FEAS has achieved significant success in conducting around 20 online events for FEAS Members and not only. FEAS new project “Meet the Market with FEAS” gathered more than 1000 participants who span the globe from Asia to Europe and Middle East, the participants were representatives of Investment Banks, Stock Exchanges, Brokerage Firms, Asset Managers, Funds, International Corporations, as well as local Market Participants, Issuers.

This year, during the 32nd General Assembly virtual meeting, FEAS Members elected FEAS Board, including FEAS Chairman and Vice-Chairman, Working Committee Chairman and Vice-Chair, as well as Audit Committee, who initiated designing the FEAS new Strategy.

Continuing its mission to promote collaboration of the capital markets of the Eurasian region throughout the whole year, the Federation of Euro-Asian Stock Exchanges organized the first in-person gathering after a long break. “Capital Market Talks” - an invitation-only closed event, with a special agenda of discussion. With the new initiative, FEAS would like to design in-person gathering alternatives to big conferences in a new world and give the floor to all participants for speaking.

Throughout the year, our team conducted over 10 researches and published the reports, released 10 publications and over 12 request reports by FEAS Members.

2021 was an incredibly hard year for many people, we’ve all had to adapt to a “new normal,” although what that looks like is different for each company, but at the same time we can assure that this year was proof that our world is more connected than ever.

As we set foot into a new year, we at FEAS will continue to do our utmost to further develop cooperation, research and financial education. We will also carry on promoting online webinars, networking and business relations between the Stock Exchanges. But for all that, we are ever mindful that little can be achieved on our own. With this in mind, we kindly ask for our community’s continued guidance, encouragement, and support in 2022.

Wishing you a holiday of love, peace, and good health!

Yours sincerely,
Konstantin Saroyan
FEAS Secretary General
